

Dear Partners,

We are happy introducing to You our company: «VKK#2», which belongs to one of the biggest agricultural holdings in Ukraine – UPI-AGRO. Please, follow the QR code to learn more about it:

Our brief history and nowadays:

Founded

VKK#2 was founded in 1972 and have been always working on supplying the clients by the highest quality products.

1972

Development

During its existence, our mill's equipment had been fully upgraded three times. And at the beginning of 2017 VKK#2 was named as the only leader of flour-milling branch of Ukraine.

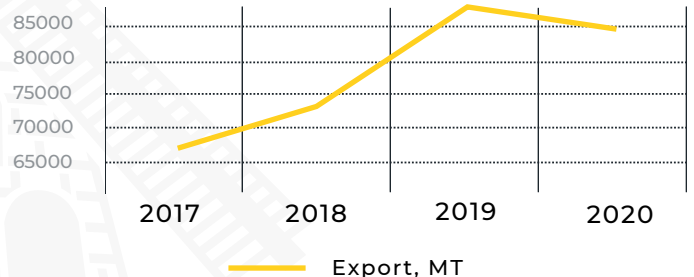

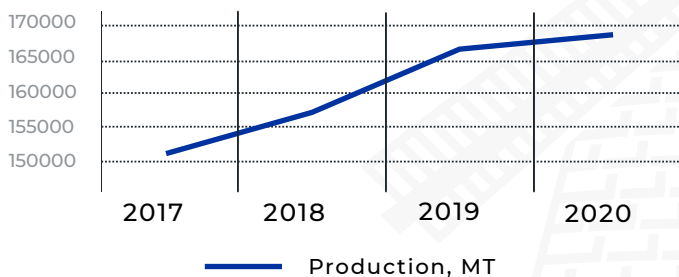

2017

Today

2021

- No. 1 producer of Ukrainian wheat flour
- 750 metric tons daily wheat processing
- Over 500 employees
- Own logistic facilities

- No. 1 exporter of Ukrainian wheat flour
- Exporting products to more than 30 countries
- More than 25% share in Ukrainian wheat flour export

Our Mission is **QTI**:

Quality, meaning the uncompromising approach to the quality in all stages of production

Team of Professionals, who are responsible for production and promotion all over the world

Improvement, which gives us the ability to be always ready for nonstandard and special Partner's requirements.

VKK#2 takes the leads in buckwheat production. Its consumption is increasing rapidly all over the world due to its useful properties. Capacity is 1 500 metric tons monthly.

Following the next page, You may find our assortment with packing data and tech. specs information

We are open for Partnership

With Regards,

VKK#2 Commercial Director

Serhii Karpenko
